

AN-MAX[®]

GUARANTEED ANALYSIS 18-0-0

Total Nitrogen (N) 18.00%

Derived from: Ammonium Nitrate.

ALSO CONTAINS NON-PLANT FOOD INGREDIENT:

1.5% Organic Matter (derived from leonardite)

DIRECTIONS FOR USE

• Shake well before use. • Designed to be applied by both soil and/or foliar application. • AN-MAX[®] supplies nitrogen to crops and should be applied when tissue and soil analysis identifies the need and proper rate of application for this product. • Best results will be obtained when application is concentrated in the active root zone or on the leaf surface. • Can be applied in combination with compatible plant growth regulators, pesticides, or other liquid fertilizers. • If compatibility is in question, jar test a small quantity. • Apply foliar sprays with sufficient water to ensure uniform coverage without running off leaf surfaces. • Do not apply this product foliarly in concentrations greater than 5%. • For maximum results, apply in the early morning or in the evening when air temperatures are optimum for foliar application. • Do not apply HUMA GRO[®] nutrients during the hottest time of the day or to plants under drought or flood stress. • Application timing, intervals and rates may vary according to individual crop requirement, stage of development, available nutrient levels in the soil, and overall nutritional status of the crop. • Applications can be made as often as every 7 to 10 days as needed. • Consult your local HUMA GRO[®] Representative or other agricultural specialist for crop-specific recommendations. • Do not store this product below 50°F (10°C) or above 90°F (30°C).

This product is intended as a supplement to a complete fertilization program and will not, by itself, provide all the nutrients normally required by agricultural crops.

STORAGE AND DISPOSAL:

Keep product in original container. Do not transfer into food or drink containers. Triple rinse when empty for recycling. Always dispose of container in accordance with local, state and/or federal regulations.

METHOD OF APPLICATION

SUGGESTED RATE PER ACRE
Field Crops / Tree or Vine Crops

Foliar band application at 50% coverage	up to 1 gallon / ---
Foliar broadcast or sprinklers: solid, set, linear, pivot (100% speed)	up to 2 gallons / up to 5 gallons
Soil banded or injected, through drip tape or micro sprinklers	up to 5 gallons / up to 10 gallons
Soil broadcast spray incorporated, flood, or furrow irrigated	up to 10 gallons / up to 20 gallons
