

X-TEND®

GUARANTEED ANALYSIS 6-2-0

Total Nitrogen (N) 6.00%
6.00% Urea Nitrogen
Available Phosphate (P₂O₅) 2.00%

Derived from: Urea, Phosphoric Acid.
Delivered by: Micro Carbon Technology®

ALSO CONTAINS NON-PLANT FOOD INGREDIENT:
9.0% Organic Matter (derived from leonardite)

DIRECTIONS FOR USE

• Shake well before use. • Designed to be applied by soil application. • X-TEND® supplies nitrogen and phosphorus to crops and should be applied when soil analysis identifies the need and proper rate of application for this product. • After adding X-TEND® to solutions, allow 24 to 48 hours for Micro Carbon complexing to occur. • Use caution when adding to high analysis/ multi-nutrient solutions, highly acidic or basic solutions, or unstable suspensions. • When complexing phosphate fertilizer solutions consider using HUMA GRO® SUPER PHOS® instead or in addition to X-TEND®. • Can be applied in combination with compatible plant growth regulators, pesticides, or other liquid nutrients. • If compatibility is in question, jar test a small quantity. • When impregnating X-TEND® to a granular fertilizer with relative humidity levels over 80%, apply granular directly to the field without allowing the product to sit or store, otherwise clumping may occur. • For maximum results, incorporate liquids or granules into the soil mechanically or with proper irrigation. • Application timing, intervals and rates may vary according to individual crop requirement, stage of development, available nutrient levels in the soil, and overall nutritional status of the crop. • Applications can be made as often as every 15 to 20 days as needed. • Consult your local HUMA GRO® representative or other agricultural specialist for crop-specific recommendations. • Do not store this product below 10°C (50°F) or above 30°C (90°F).

This product is intended as a supplement to a complete fertilization program and will not, by itself, provide all the nutrients normally required by agricultural crops.

STORAGE AND DISPOSAL:

Keep product in original container. Do not transfer into food or drink containers. Triple rinse when empty for recycling. Always dispose of container in accordance with local, state and/or federal regulations.

METHOD OF APPLICATION

SUGGESTED RATE PER HECTARE

General application to soil	up to 2.5 liters per hectare
Liquid fertilizer solutions (soil applied)	1 liter per 160 liters of liquid
Dry, non-coated, granular fertilizers	2 liters per metric ton of granular

CONDITIONS OF SALE:

The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, crop conditions and other factors are beyond the control of the seller.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

KEEP OUT OF REACH OF CHILDREN

A deep brown, moderately alkaline liquid having a slight characteristic odor. The liquid and mists may be irritating to the eyes and the skin, with some blue tinting of the skin. Inhalation of mists may be irritating to the entire respiratory tract. Ingestion of this product can cause gastrointestinal irritation or pain, with possible cardiovascular and central nervous system effects.

CLASSIFICATION: HAZARD CATEGORY 3—MILD SKIN IRRITATION

SIGNAL WORD: WARNING

HAZARD STATEMENT: H316—WARNING—Causes mild skin irritation.

PRECAUTIONARY STATEMENT: P332+P313 If skin irritation occurs, get medical attention/advice.
